

# Unifor DRT Message

## ***Brothers and Sisters of Durham Region Transit:***

Your elected Union Representatives, Health and Safety representatives and myself as your Unit Chairperson would like to thank you for the continued services you are providing to keep transit running during these unprecedented times.

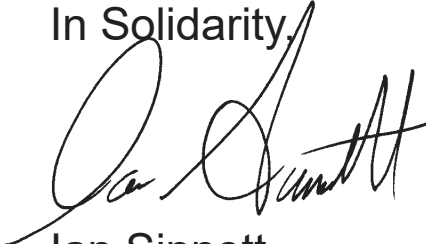

Your dedication and hard work ensures that we are getting the public to where they need to be, including the front-line workers who protect us and the most vulnerable who require our services the most.

Your employer and Regional Councillors have depended on us to help their constituents during these troubling times and we have answered their call.

I would expect that if a time comes when their employees need to depend on them that they would respond in kind.

**Stay safe, stay strong and be proud of the services you are providing.**

In Solidarity,  
  
Ian Sinnott  
Chairperson
