## Bargaining Update

*Sisters and Brothers,*

We are writing to you to keep you, the membership, informed of our progress at the bargaining table.

At this time, we are still in negotiations, and progress has been made on some of the issues we have raised.

Today we received the “No Board “report from the Ministry of Labour, which means **we will be in a legal strike position Sunday, February 24, at midnight.** No strike action can be taken legally until this date.

We appreciate the support you have shown your Bargaining Committee. We will continue to negotiate over the next two weeks in an effort to get you the best collective agreement we can.

At this point, we are still negotiating the language of the Collective Agreement. We expect to start bargaining our economic issues next week.

It is our hope that we will be able to bring back a good collective agreement for your consideration at the end of this process.

***We thank you for your continued support and we will continue to keep you updated as new information becomes available.***
